LOW-FLOW FAUCETS

New technologies allow faucets in the kitchen and bathroom to save water.

Home Innovation
NGBS GREEN CERTIFIED™

LOW-FLOW SHOWERHEADS

State-of-the-art showerheads save water and lower hot water energy costs without compromising performance.

VALUE-ENGINEERED PLUMBING SYSTEMS

Shorter plumbing runs between the water heater and lavatory faucets, tubs, and showers reduces the amount of water wasted while waiting for hot water to be delivered.
